

PriceLens

Competitive price intelligence for Tata CLIQ — product by product, against Myntra and Ajio.

One commercial question, answered at the level a buying decision is made: **for this exact product, what do our competitors charge?** Give PriceLens a Tata CLIQ product and it finds the same item on Myntra and Ajio, then reports both prices, the size of the gap and what to do about it — or says plainly that the same item could not be proven.

96% match precision, independently audited	220 graded decisions per audit round	7 independent signals behind every score	3 marketplaces compared product by product
---	---	---	---

How one comparison is decided

Four stages. The first three narrow the field; the last commits only when the evidence supports it.

Candidates surviving each stage — one live comparison, one competitor site

Two kinds of judgement, doing different jobs

ELIMINATION
only ever rejects

CANDIDATES	BRAND	CUSTOMER	TYPE	PASS
■ ■ ■ ■				✓
	×	×	×	
	different label	men's vs women's	polo vs t-shirt	

Only a contradiction eliminates. A missing attribute is not a contradiction — one marketplace publishes far less detail, and penalising it for that would invent mismatches that do not exist.

EVIDENCE
never decides alone

MRP	SPECS	TITLE	IMAGE
CODE	DESC	BRAND	

combined · weighted · renormalised

ONE CONFIDENCE FIGURE

Agreement across several independent signals outranks perfect agreement on one — which lets a genuine match survive a retailer revising its list price, and stops a coincidence passing on a similar title alone.

How the weightings were set

Each signal takes a share of the score in proportion to how strongly it identifies *one specific product* rather than a similar one. The shares were set on that principle and corrected against measured results over three audit rounds.

When a marketplace publishes less

How confidence is reported

One comparison, end to end

American Eagle — Green Cotton Regular Fit Solid T-Shirt

Tata CLIQ	Myntra	Ajio
₹1,779 MRP ₹1,999 11% off	₹1,779 MRP ₹1,999 11% off	₹980 MRP ₹1,999 51% off CHEAPEST

Ajio undercuts Tata CLIQ by ₹799 — 45% of the CLIQ price

Recommendation: Ajio is ₹799 cheaper — review pricing or promotion on this SKU.

WHY IT WAS CALLED THE SAME PRODUCT

- ✓ Brand matches
- ✓ Exact MRP match
- ✓ Specifications agree 8 of 9
- ✓ Colour verified from image
- ✓ Same garment type

The same question, across the portfolio

Each square is one product. 23 compared so far; the 12 in red are the working list and export as their own sheet.

Accuracy is measured, not asserted

Ring shows precision — the share of reported matches that are genuinely the same product. 110 fresh products, 220 decisions, graded each round.

What the software provides

Any product, on demand Work from the catalogue or paste any Tata CLIQ link — uncatalogued products are fetched and compared live.	A full comparison report Pricing, specifications, listing quality and similarity, every verdict explained, with links to verify. Prints to one page.	Excel export for analysis Filter by category, gender, brand or position, then export a summary, a comparison sheet and an action list.
Portfolio dashboards Where CLIQ holds the best price and where it is undercut, with the largest gaps ranked first.	Saved and reused A comparison is replayed for seven days rather than re-gathered, always labelled with its age.	Extends without rebuild Category knowledge is editable configuration — adding footwear or bags is a data change.
